Dokumentasi Pemrograman WEB 2

Project Akhir Vanguard

1. Update Navbar

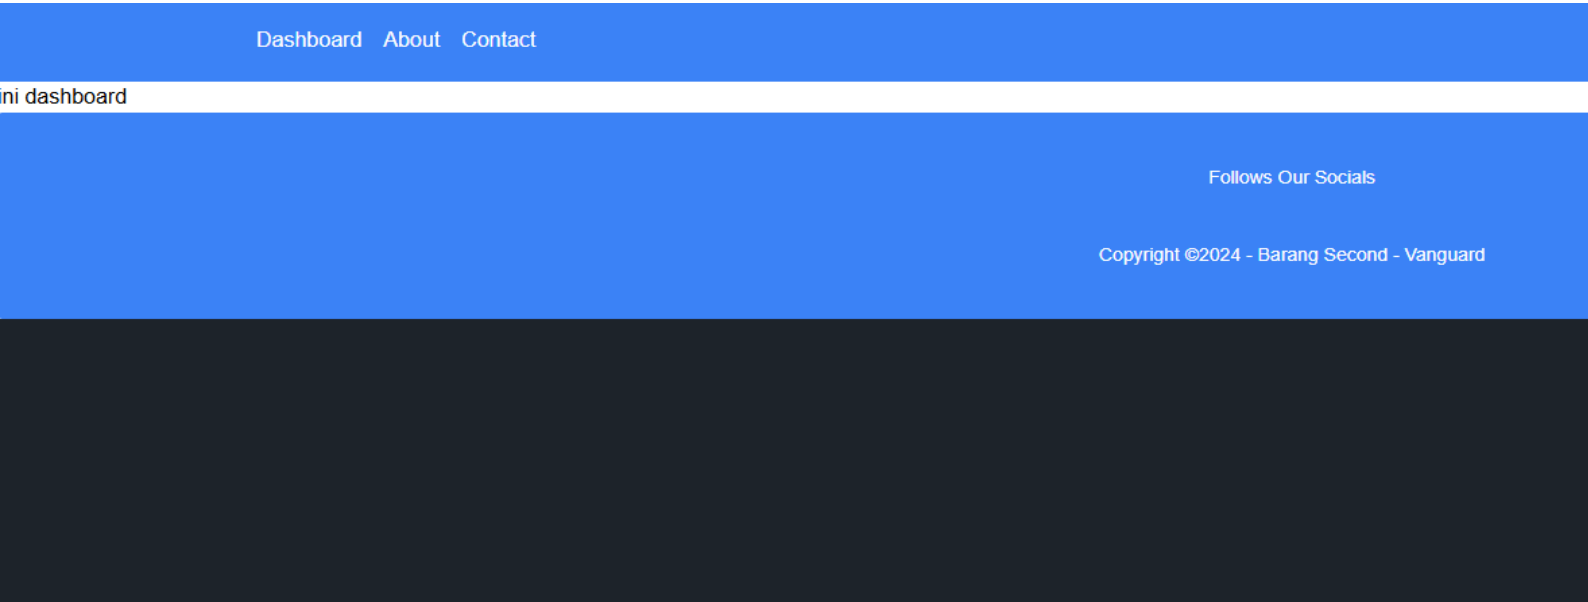

Dashboard About Contact

Follows Our Socials

Copyright ©2024 - Barang Second - Vanguard

Menambahkan tampilan Navbar, yang terdiri dari Dashboard, About, dan Contact.

2. Update Navbar

Dashboard About Contact

ini dashboard

Follows Our Socials

Copyright ©2024 - Barang Second - Vanguard

Mengubah warna navbar dari hitam ke warna biru.

```

<nav>
  <div className="navbar bg-blue-500 fixed top-0 left-0 w-full z-50 shadow-xl">
    <div className="navbar-start">
      <Link href="/" className="navbar-center btn btn-ghost text-xl">
        Barang Second
      </Link>
    </div>
  </div>

```

Yang sebelum nya adalah bg-black di ganti menjadi bg-blue untuk merubah warna pada navbar

3. Update Login

The screenshot shows a web application with a blue navbar at the top containing links for 'Dashboard', 'About', 'Contact', and a 'Login' button. In the center, there is a white login form with the following elements:

- An 'Email' input field.
- A 'Password' input field.
- A blue 'Sign In' button.
- A link below the button that says 'Belum punya akun ? Sign Up'.

At the bottom of the page, there is a blue footer with the text 'Follows Our Sociats' and 'Copyright ©2024 - Barang Second - Vanguard'.

Menambah tampilan login, yang terdiri dari email, password, botton sign in.

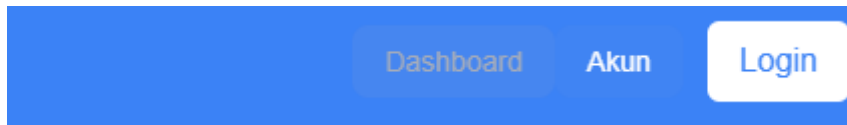

Membuat folder baru di dalam folder app untuk login dan page.tsx

```
app > login > page.tsx > loginPage
3 export default function loginPage() {
10
11   <label htmlFor="email" className="block text-sm font-medium text-gray-700">
12     Email
13   </label>
14   <input
15     type="email"
16     id="email"
17     name="email"
18     className="mt-1 block w-full px-3 py-2 border border-gray-300 rounded shadow-sm focus:ring-blue-500 focus:border-blue-500"
19     required
20   />
21 </div>
22 <div
23   (property) JSX.IntrinsicElements.label: DetailedHTMLProps<LabelHTMLAttributes<HTMLLabelElement>, HTMLLabelElement>
24   <label htmlFor="password" className="block text-sm font-medium text-gray-700">
25     Password
26   </label>
27   <input
28     type="password"
29     id="password"
30     name="password"
31     className="mt-1 block w-full px-3 py-2 border border-gray-300 rounded shadow-sm focus:ring-blue-500 focus:border-blue-500"
32     required
33   />
34 </div>
35 <button
36   type="submit"
37   className="w-full bg-blue-500 text-white px-3 py-2 rounded hover:bg-blue-600"
38 >
39   Sign In
40 </button>
41 </form>
42 <p className="mt-4 text-sm text-gray-600 text-center">
43   Belum punya akun ? <a href="signup" className="text-blue-500 hover:underline">Sign Up</a>
44 </p>
45 }
```

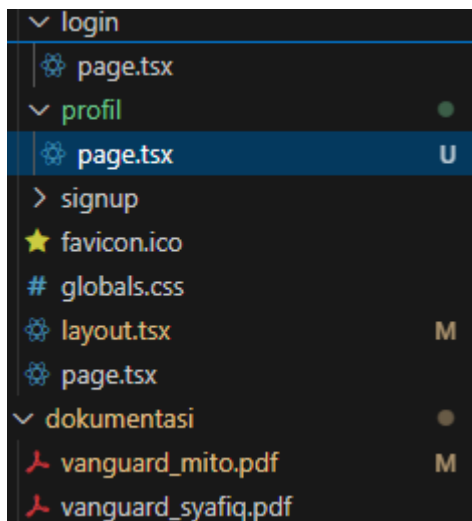

Untuk menambahkan tampilan pada login seperti email, password

4. Update Profil

Merubah akun pada navbar menjadi profil

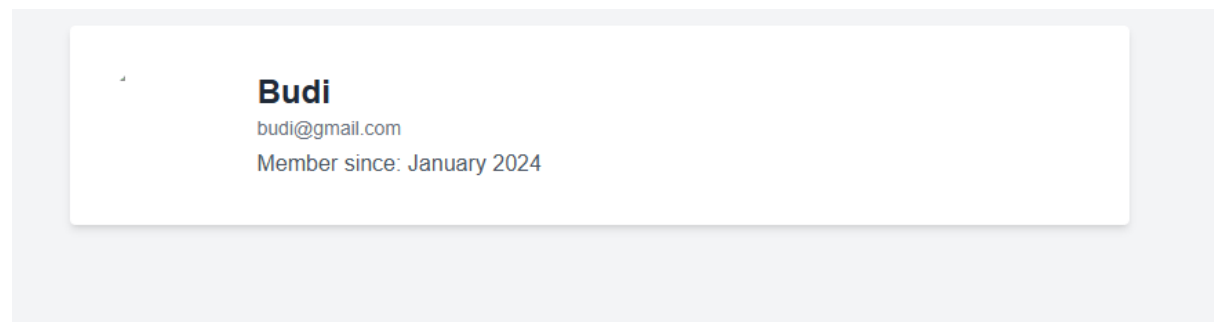

```
<li>  
  <Link href={"/"}>Profil</Link>  
</li>  
</ul>
```

Menambahkan module profil dan page.tsx

```
<Image
  src="" // source gambar avatar pengguna
  alt="User Avatar"
  width={96}
  height={96}
  className="rounded-full object-cover"
/>
</div>
<div>
  <h2 className="text-2xl font-bold text-gray-800">Budi</h2>
  <p className="text-sm text-gray-500">budi@gmail.com</p>
  <p className="mt-1 text-gray-600">
    Member since: January 2024
  </p>
</div>
</div>
```

Menambah tampilan pada profile seperti foto pengguna, nama, dan Alamat email pengguna serta keterangan bergabung.

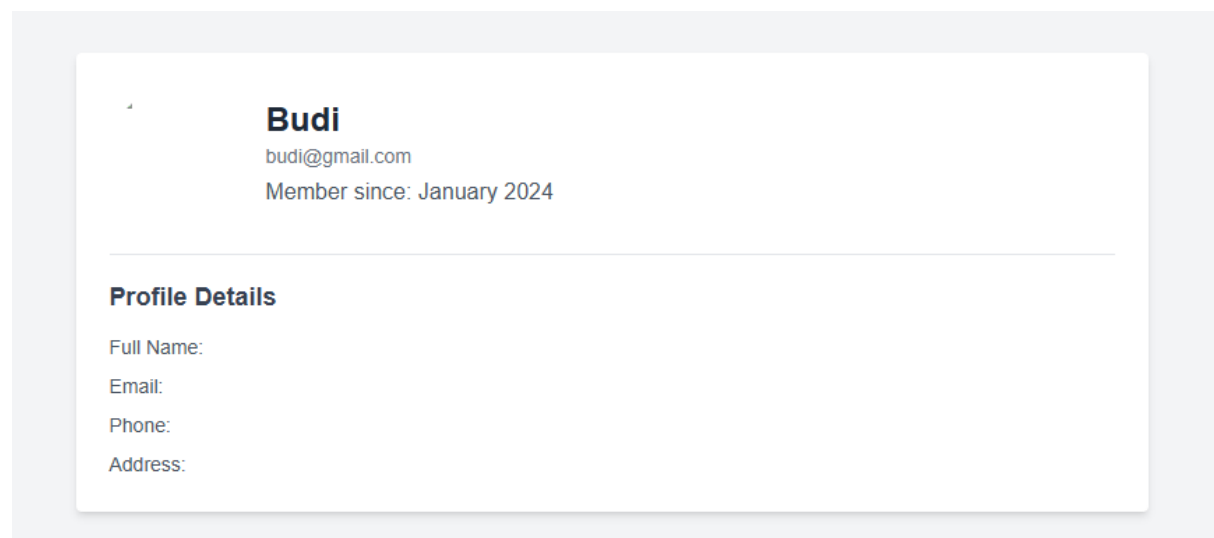

```

{/* Informasi Detail */}
<div className="mt-6 border-t pt-4">
  <h3 className="text-lg font-semibold text-gray-700">Profile Details</h3>
  <div className="mt-3 space-y-2">
    <div className="flex justify-between text-sm text-gray-600">
      <span>Full Name:</span>
      <span></span>
    </div>
    <div className="flex justify-between text-sm text-gray-600">
      <span>Email:</span>
      <span></span>
    </div>
    <div className="flex justify-between text-sm text-gray-600">
      <span>Phone:</span>
      <span></span>
    </div>
    <div className="flex justify-between text-sm text-gray-600">
      <span>Address:</span>
      <span></span>
    </div>
  </div>
</div>

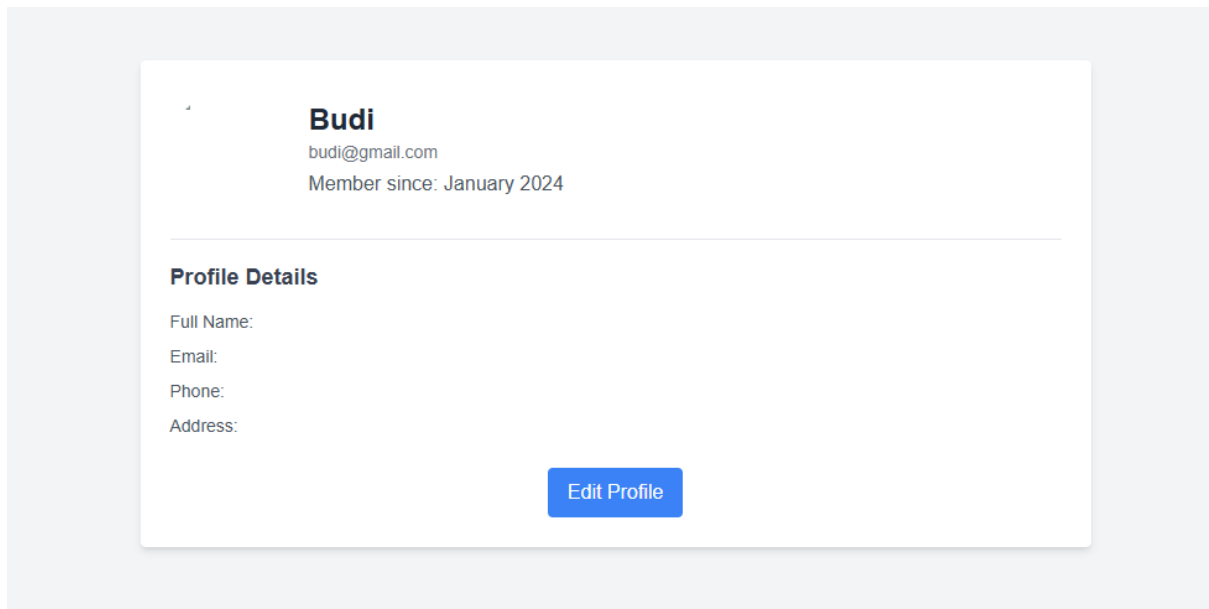

```

Menambah detail profil pengguna, seperti Alamat dan phone.

```
{/* Tombol Edit Profil */}  
<div className="mt-6 text-center">  
  <button className="px-4 py-2 bg-blue-500 text-white rounded hover:bg-blue-600">  
    Edit Profile  
  </button>  
</div>
```

Menambah button edit profile

5. Update produk

```
<div className="grid grid-cols-1 md:grid-cols-2 lg:grid-cols-3 gap-6">
  {products.map((product) => (
    <div key={product.id} className="card glass">
      
      <div className="card-body □text-black">
        <h2 className="card-title">{product.nama}</h2>
        <p>Price: Rp. {product.harga.toFixed(2)}</p>
        <p>{product.deskripsi || "No description available."}</p>
        <div className="card-actions justify-end">
          <button
            className="btn □btn-primary"
            onClick={() => handleDetailClick(product)}
          >
            Detail Produk
          </button>
        </div>
      </div>
    </div>
  )
  </div>
```

Menambah detail botton produk

Laptop A

Price: Rp. 12000000.00

No description available.

Detail Produk

6. Update add produk

The screenshot displays a web application interface. At the top, there is a form titled 'Update add produk' with three input fields: 'Nama Produk', 'Harga Produk', and 'Deskripsi Produk'. Below these fields is a blue button labeled 'Tambahkan'. The form is set against a light gray background. Below the form, there is a blue footer section. The footer contains the text 'Follows Our Socials' above three social media icons (Instagram, TikTok, and X). At the bottom of the footer, it says 'Copyright ©2024 - Barang Second - Vanguard'.

Menambahkan add produk

Menambah module add

```

<form onSubmit={handleSubmit}>
  <div className="mb-4">
    <label htmlFor="nama" className="block text-sm font-medium text-gray-700">
      Nama Produk
    </label>
    <input
      type="text"
      name="nama"
      id="nama"
      value={formData.nama}
      onChange={handleInputChange}
      className="mt-1 block w-full rounded-md border-gray-300 shadow-sm"
      required
    />
  </div>
  <div className="mb-4">
    <label htmlFor="harga" className="block text-sm font-medium text-gray-700">
      Harga Produk
    </label>
    <input
      type="number"
      name="harga"
      id="harga"
      value={formData.harga}
      onChange={handleInputChange}
      className="mt-1 block w-full rounded-md border-gray-300 shadow-sm"
      required
    />
  </div>
  <div className="mb-4">
    <label htmlFor="deskripsi" className="block text-sm font-medium text-gray-700">
      Deskripsi Produk
    </label>
    <textarea
      name="deskripsi"
      id="deskripsi"
      value={formData.deskripsi}
      onChange={handleInputChange}
      className="mt-1 block w-full rounded-md border-gray-300 shadow-sm"
    />
  </div>
  <button

```

Menambahkan fungsi add produk

7. Update edit produk

```

    <button>
      Tutup
    </button>
    <button
      onClick={() => {
        // Arahkan ke halaman update dengan data produk yang dipilih
        window.location.href = `/update?nama=${selectedProduct?.nama}&harga=${selectedProduct?.harga}&deskripsi=${selectedProduct?.deskripsi}`;
      }}
      className="px-4 py-2 bg-blue-500 text-white rounded hover:bg-blue-600"
    >
      Edit Produk
    </button>
  </div>
</div>

```

Menambahkan botton edit produk

Laptop A

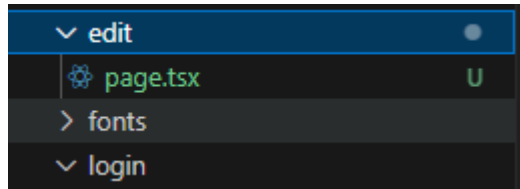

Harga: Rp. 12000000.00

Menambahkan tampilan untuk mengedit produk

9. Menambah button delete

10. Update navbar

The screenshot shows the 'Update Produk' form in the 'Barang Second' application. The form is centered on a light gray background. It has a title 'Update Produk' at the top. Below the title are three input fields: 'Nama Produk:', 'Harga:', and 'Deskripsi Produk:'. The 'Deskripsi Produk:' field is a larger text area. At the bottom of the form is a blue 'Submit' button. The application's navbar is visible at the top, with 'Barang Second' on the left and 'Dashboard', 'Profil', 'Admin Dashboard', and 'Login' on the right.

Menambah admin dashboard

11. Update navbar admin dashboard

The screenshot shows the 'Admin Dashboard' in the 'Barang Second' application. The dashboard is titled 'Admin Dashboard' and features three product cards. Each card has a header image showing a desk setup with a laptop, glasses, and a camera. The products listed are 'Iphone A', 'Laptop X', and 'Iphone 16'. Each card displays the product name, price (Rp. 17000000.00), and specifications (Hitam, IOS BIONIC 7 for Iphone A; Windows 11, RTX 4090 TI, 16 GB DDR5 for Laptop X; IOS 15, 12 GB RAM for Iphone 16). At the bottom of each card are two buttons: 'Delete' (red) and 'Detail Produk' (blue). The application's navbar is visible at the top, with 'Barang Second' on the left and 'Dashboard', 'Profil', and 'Login' on the right.

Menambah button profil di admin dashboard
