Dokumentasi Pemrograman WEB 2

Project Akhir Vanguard

1. Update Navbar

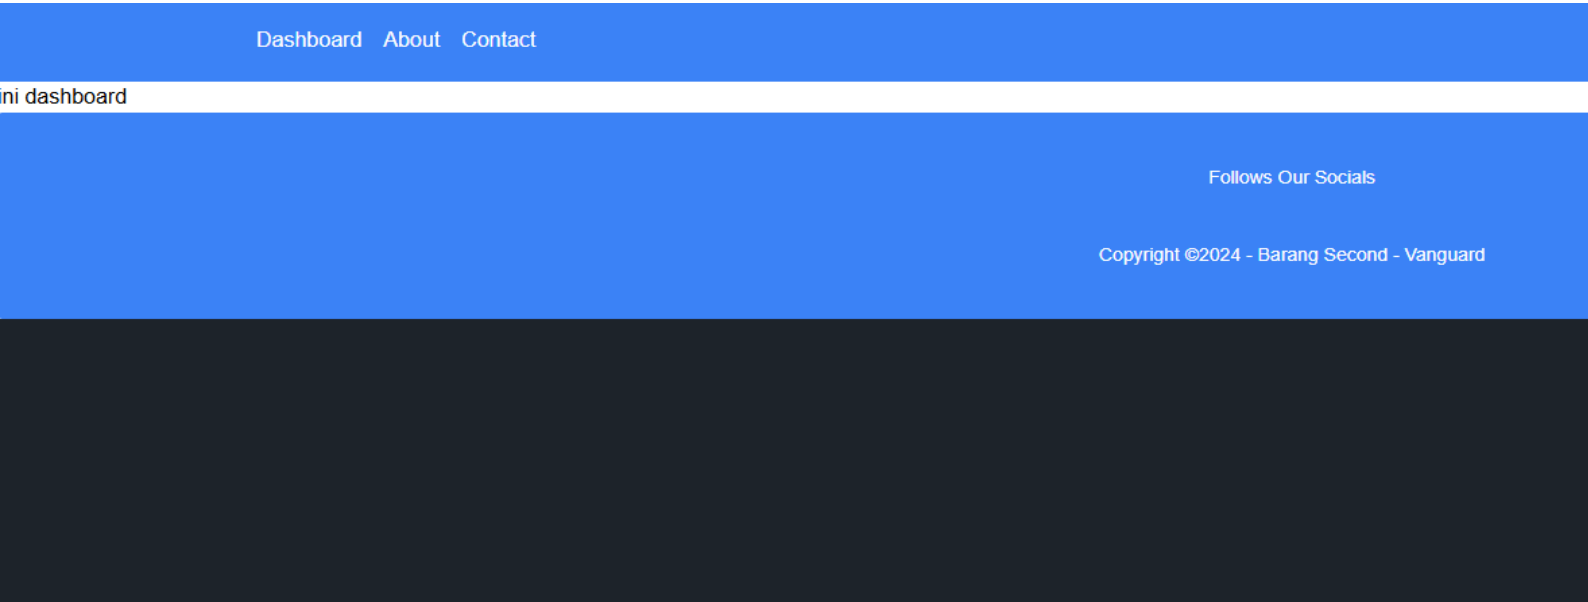

Dashboard About Contact

Follows Our Socials

Copyright ©2024 - Barang Second - Vanguard

Menambahkan tampilan Navbar, yang terdiri dari Dashboard, About, dan Contact.

2. Update Navbar

Dashboard About Contact

ini dashboard

Follows Our Socials

Copyright ©2024 - Barang Second - Vanguard

Mengubah warna navbar dari hitam ke warna biru.

```

<nav>
  <div className="navbar bg-blue-500 fixed top-0 left-0 w-full z-50 shadow-xl">
    <div className="navbar-start">
      <Link href={"/"} className="navbar-center btn btn-ghost text-xl">
        Barang Second
      </Link>
    </div>
  </div>

```

Yang sebelum nya adalah bg-black di ganti menjadi bg-blue untuk merubah warna pada navbar

3. Update Login

The screenshot shows a web application with a blue navbar at the top containing links for 'Dashboard', 'About', 'Contact', and a 'Login' button. In the center, there is a white login form with a shadow. The form includes an 'Email' input field, a 'Password' input field, a blue 'Sign In' button, and a link that says 'Belum punya akun ? Sign Up'. Below the form, there is a blue footer section with the text 'Follows Our Sociats' and 'Copyright ©2024 - Barang Second - Vanguard'.

Menambah tampilan login, yang terdiri dari email, password, botton sign in.

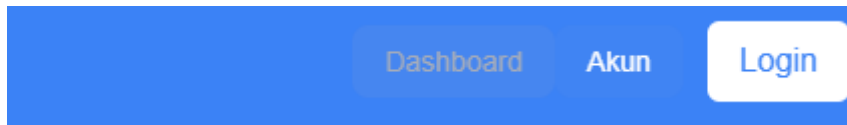

Membuat folder baru di dalam folder app untuk login dan page.tsx

```
app > login > page.tsx > loginPage
3 export default function loginPage() {
10
11   <label htmlFor="email" className="block text-sm font-medium text-gray-700">
12     Email
13   </label>
14   <input
15     type="email"
16     id="email"
17     name="email"
18     className="mt-1 block w-full px-3 py-2 border border-gray-300 rounded shadow-sm focus:ring-blue-500 focus:border-blue-500"
19     required
20   />
21 </div>
22 <div
23   (property) JSX.IntrinsicElements.label: DetailedHTMLProps<LabelHTMLAttributes<HTMLLabelElement>, HTMLLabelElement>
24   <label htmlFor="password" className="block text-sm font-medium text-gray-700">
25     Password
26   </label>
27   <input
28     type="password"
29     id="password"
30     name="password"
31     className="mt-1 block w-full px-3 py-2 border border-gray-300 rounded shadow-sm focus:ring-blue-500 focus:border-blue-500"
32     required
33   />
34 </div>
35 <button
36   type="submit"
37   className="w-full bg-blue-500 text-white px-3 py-2 rounded hover:bg-blue-600"
38 >
39   Sign In
40 </button>
41 </form>
42 <p className="mt-4 text-sm text-gray-600 text-center">
43   Belum punya akun ? <a href="signup" className="text-blue-500 hover:underline">Sign Up</a>
44 </p>
45 }
```

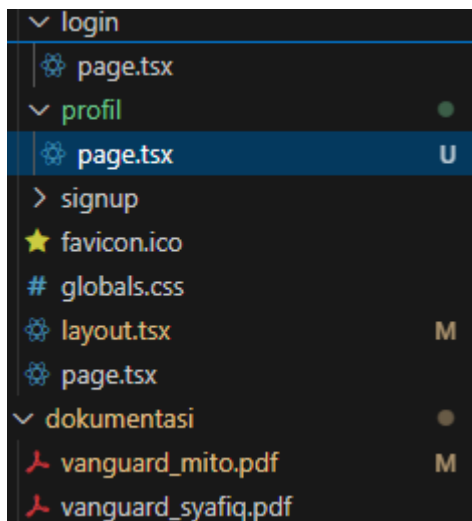

Untuk menambahkan tampilan pada login seperti email, password

4. Update Profil

Merubah akun pada navbar menjadi profil

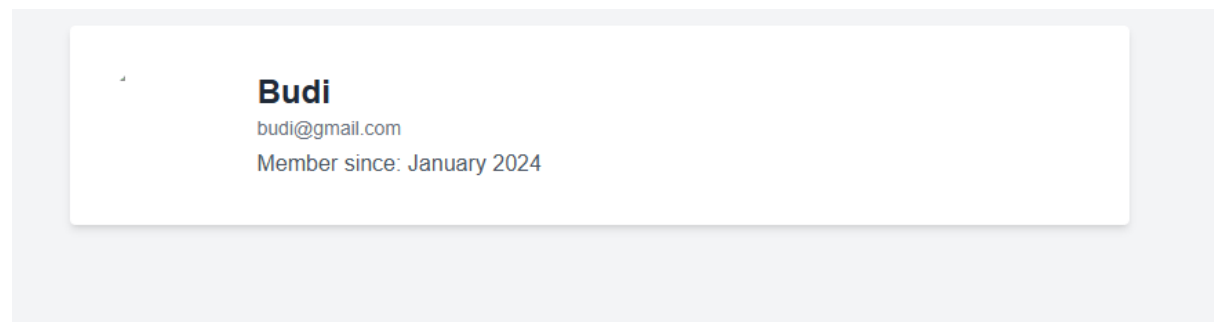

```
<li>  
  <Link href={"/"}>Profil</Link>  
</li>  
</ul>
```

Menambahkan module profil dan page.tsx

```
<Image  
  src="" // source gambar avatar pengguna  
  alt="User Avatar"  
  width={96}  
  height={96}  
  className="rounded-full object-cover"  
/>  
</div>  
<div>  
  <h2 className="text-2xl font-bold text-gray-800">Budi</h2>  
  <p className="text-sm text-gray-500">budi@gmail.com</p>  
  <p className="mt-1 text-gray-600">  
    Member since: January 2024  
  </p>  
</div>  
</div>
```

Menambah tampilan pada profile seperti foto pengguna, nama, dan Alamat email pengguna serta keterangan bergabung.

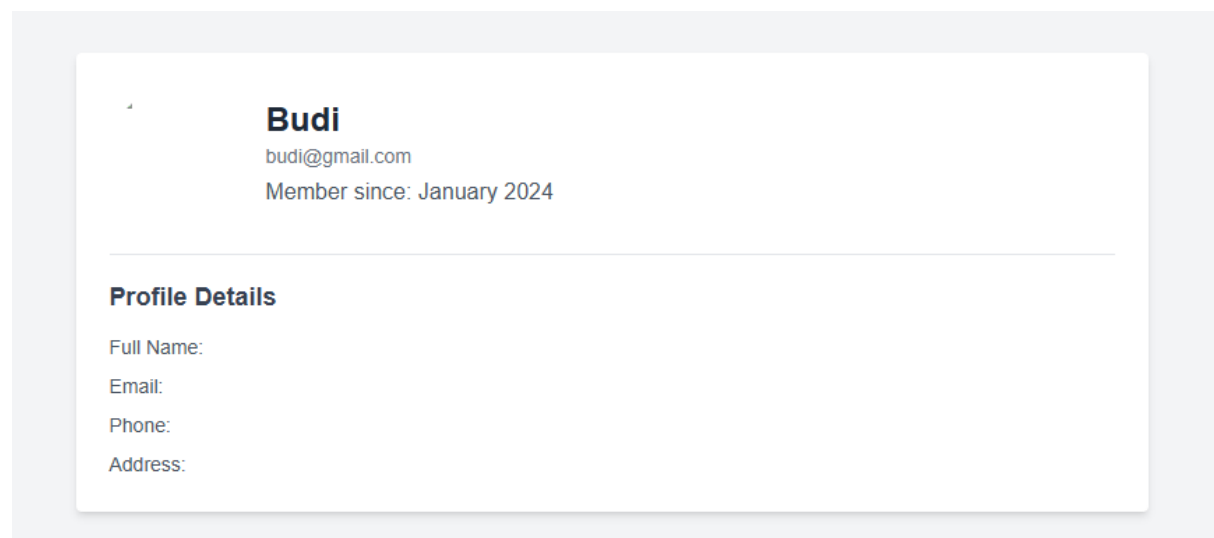

```

{/* Informasi Detail */}
<div className="mt-6 border-t pt-4">
  <h3 className="text-lg font-semibold text-gray-700">Profile Details</h3>
  <div className="mt-3 space-y-2">
    <div className="flex justify-between text-sm text-gray-600">
      <span>Full Name:</span>
      <span></span>
    </div>
    <div className="flex justify-between text-sm text-gray-600">
      <span>Email:</span>
      <span></span>
    </div>
    <div className="flex justify-between text-sm text-gray-600">
      <span>Phone:</span>
      <span></span>
    </div>
    <div className="flex justify-between text-sm text-gray-600">
      <span>Address:</span>
      <span></span>
    </div>
  </div>
</div>

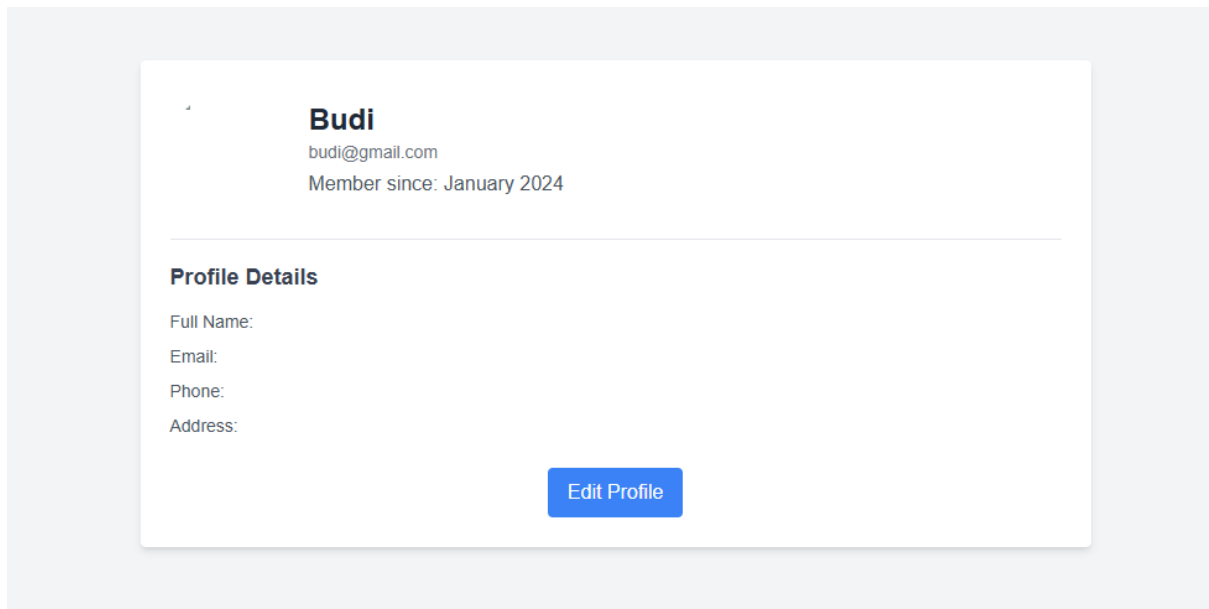

```

Menambah detail profil pengguna, seperti Alamat dan phone.

```
{/* Tombol Edit Profil */}  
<div className="mt-6 text-center">  
  <button className="px-4 py-2 bg-blue-500 text-white rounded hover:bg-blue-600">  
    Edit Profile  
  </button>  
</div>
```

Menambah button edit profile

5. Update produk

```
<div className="grid grid-cols-1 md:grid-cols-2 lg:grid-cols-3 gap-6">
  {products.map((product) => (
    <div key={product.id} className="card glass">
      
      <div className="card-body □text-black">
        <h2 className="card-title">{product.nama}</h2>
        <p>Price: Rp. {product.harga.toFixed(2)}</p>
        <p>{product.deskripsi || "No description available."}</p>
        <div className="card-actions justify-end">
          <button
            className="btn □btn-primary"
            onClick={() => handleDetailClick(product)}
          >
            Detail Produk
          </button>
        </div>
      </div>
    </div>
  )
  </div>
```

Menambah detail botton produk

Laptop A

Price: Rp. 12000000.00

No description available.

Detail Produk

6. Update add produk

The screenshot displays a web application interface. At the top, there is a form titled 'Update add produk' with three input fields: 'Nama Produk', 'Harga Produk', and 'Deskripsi Produk'. Below these fields is a blue button labeled 'Tambahkan'. The form is set against a light gray background. Below the form, there is a blue footer section. The footer contains the text 'Follows Our Socials' above three social media icons (Instagram, TikTok, and X). At the bottom of the footer, it says 'Copyright ©2024 - Barang Second - Vanguard'.

Menambahkan add produk

Menambah module add

```

<form onSubmit={handleSubmit}>
  <div className="mb-4">
    <label htmlFor="nama" className="block text-sm font-medium text-gray-700">
      Nama Produk
    </label>
    <input
      type="text"
      name="nama"
      id="nama"
      value={formData.nama}
      onChange={handleInputChange}
      className="mt-1 block w-full rounded-md border-gray-300 shadow-sm"
      required
    />
  </div>
  <div className="mb-4">
    <label htmlFor="harga" className="block text-sm font-medium text-gray-700">
      Harga Produk
    </label>
    <input
      type="number"
      name="harga"
      id="harga"
      value={formData.harga}
      onChange={handleInputChange}
      className="mt-1 block w-full rounded-md border-gray-300 shadow-sm"
      required
    />
  </div>
  <div className="mb-4">
    <label htmlFor="deskripsi" className="block text-sm font-medium text-gray-700">
      Deskripsi Produk
    </label>
    <textarea
      name="deskripsi"
      id="deskripsi"
      value={formData.deskripsi}
      onChange={handleInputChange}
      className="mt-1 block w-full rounded-md border-gray-300 shadow-sm"
    />
  </div>
  <button

```

Menambahkan fungsi add produk

7. Update edit produk

```

    <button>
      Tutup
    </button>
    <button
      onClick={() => {
        // Arahkan ke halaman update dengan data produk yang dipilih
        window.location.href = `/update?nama=${selectedProduct?.nama}&harga=${selectedProduct?.harga}&deskripsi=${selectedProduct?.deskripsi}`;
      }}
      className="px-4 py-2 bg-blue-500 text-white rounded hover:bg-blue-600"
    >
      Edit Produk
    </button>
  </div>
</div>

```

Menambahkan botton edit produk

Laptop A

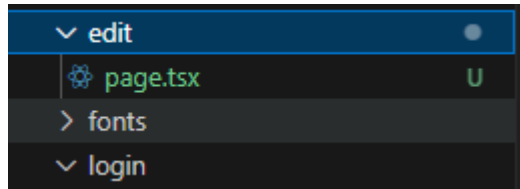

Harga: Rp. 12000000.00

Deskripsi: Windows 11, RTX 9050, 16 GB DDR6

Tutup

Edit Produk

Menambahkan module edit

8. Update edit

Barang Second Dashboard Profil Login

Update Produk

Nama Produk:

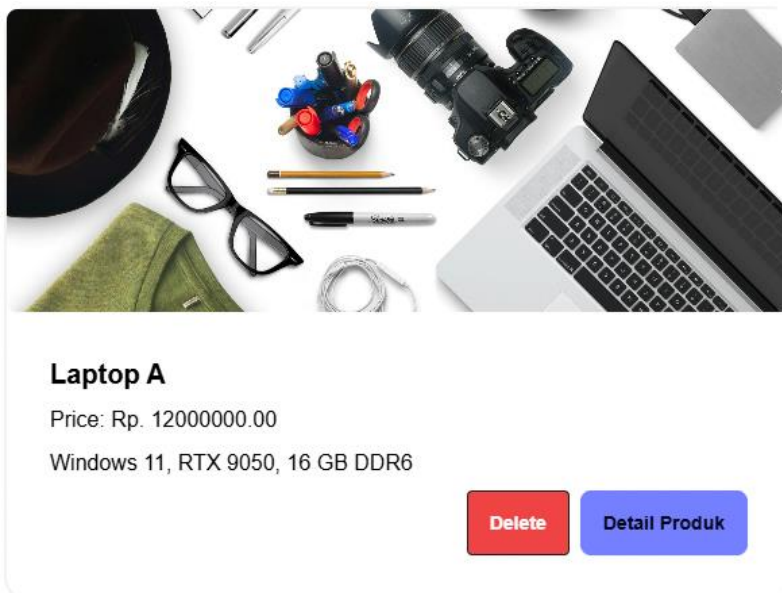

Harga:

Deskripsi Produk:

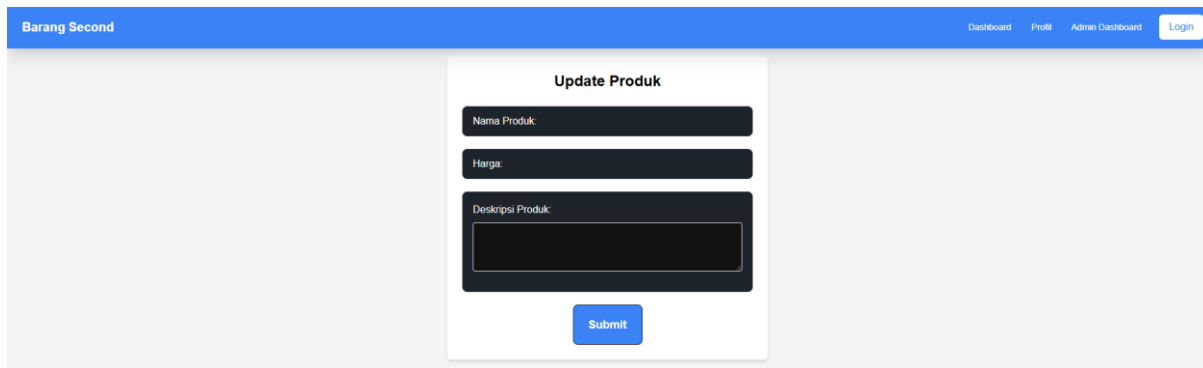

Follows Our Socials

Menambahkan tampilan untuk mengedit produk

9. Menambah button delete

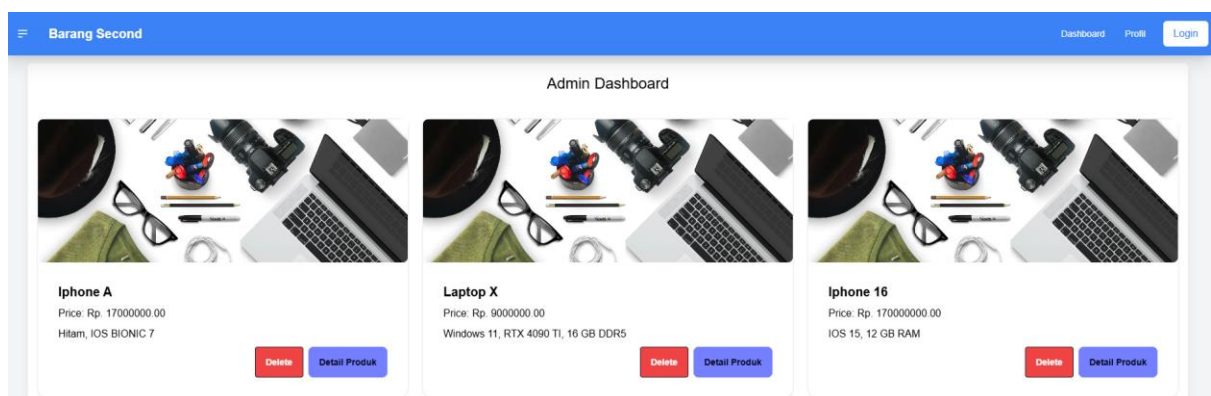

10. Update navbar

Menambah admin dashboard

```
<div className="navbar-end lg:flex">
  <ul className="menu menu-horizontal px-1">
    <li>
      <Link href={"/dashboard"}>Dashboard</Link>
    </li>
    <li>
      <Link href={"/profil"}>Profil</Link>
    </li>
    <li>
      <Link href={"/admin"}>Admin Dashboard</Link>
    </li>
  </ul>
```

11. Update navbar admin dashboard

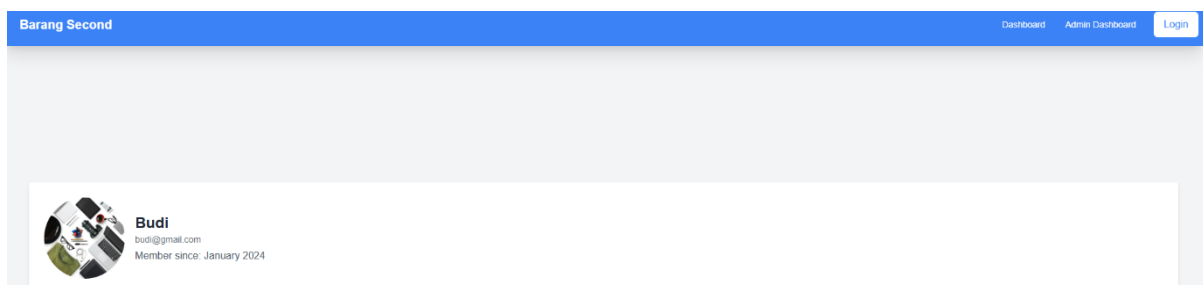

Menambah button profil di admin dashboard

```

<div className="navbar-end lg:flex">
  <ul className="menu menu-horizontal px-1">
    <li>
      <Link href={"/dashboard"}>Dashboard</Link>
    </li>
    <li>
      <Link href={"/profil"}>Profil</Link>
    </li>
  </ul>

```

12. Update navbar profil

Mengubah button pada navbar profil yang sebelumnya profil menjadi admin dashboard

```

<div className="navbar-end lg:flex">
  <ul className="menu menu-horizontal px-1">
    <li>
      <Link href={"/dashboard"}>Dashboard</Link>
    </li>
    <li>
      <Link href={"/admin"}>Admin Dashboard</Link>
    </li>
  </ul>

```

13. Update fungsi edit produk

```
const prisma = new PrismaClient();

// Fungsi untuk menampilkan data produk
export async function getData() {
  return await prisma.tb_produk.findMany();
}

// Fungsi untuk mengambil produk berdasarkan nama
export const getProductByName = async (nama: string) => {
  return await prisma.tb_produk.findMany({
    where: { nama },
  });
};

// Fungsi untuk memperbarui data produk berdasarkan nama
export const updateProduct = async (
  old_nama: string,
  nama: string,
  harga: number,
  deskripsi: string
) => {
  if (!old_nama) {
    throw new Error("Parameter old_nama tidak boleh kosong.");
  }

  // Cari produk berdasarkan nama lama
  const productToUpdate = await prisma.tb_produk.findFirst({
    where: { nama: old_nama },
  });

  if (!productToUpdate) {
    throw new Error("Produk tidak ditemukan dengan nama tersebut.");
  }

  // Perbarui data produk menggunakan ID
  return await prisma.tb_produk.update({
    where: { id: productToUpdate.id },
    data: { nama, harga, deskripsi },
  });
};
```

membuat fungsi update produk berdasarkan oldnama,nama,harga,deskripsi

14. Update tampilan edit

The screenshot shows the 'Edit Produk' form in the 'Barang Second' application. The form is centered on a light gray background. It has a title 'Edit Produk' and a label 'Nama Produk Lama:'. Below the label is a text input field with the placeholder text 'Masukkan nama produk lama'. A blue button labeled 'Must Data' is positioned below the input field. The form is enclosed in a white box with a subtle shadow. The application's header is blue with the text 'Barang Second' on the left and 'Dashboard', 'Profil', and 'Login' on the right. The footer is also blue, featuring social media icons for Instagram, TikTok, and X, and the text 'Follows Our Socials' and 'Copyright ©2024 - Barang Second - Vanguard'.

15. Update navbar di login

The screenshot shows the 'Sign In' form in the 'Barang Second' application. The form is centered on a light gray background. It has a title 'Sign In' and two input fields labeled 'Email' and 'Password'. A blue button labeled 'Sign In' is positioned below the input fields. Below the button is a link that says 'Belum punya akun ? Sign Up'. The form is enclosed in a white box with a subtle shadow. The application's header is blue with the text 'Barang Second' on the left and 'Dashboard', 'Profil', 'Admin', and 'Login' on the right.

Menambahkan button dashboard, dan admin dashboard

16. Update navbar sign up

The screenshot shows the 'Sign Up' form in the 'Barang Second' application. The form is centered on a light gray background. It has a title 'Sign Up' and two input fields labeled 'Email' and 'Password'. A blue button labeled 'Sign Up' is positioned below the input fields. Below the button is a link that says 'Sudah punya akun ? Sign In'. The form is enclosed in a white box with a subtle shadow. The application's header is blue with the text 'Barang Second' on the left and 'Dashboard', 'Admin', and 'Login' on the right.

17. Menambah fitur search
